My Warmbaderhof

A place of peace and relaxation - for all those who want to do something good for themselves.

Warmbad – for thousands of years a place where people have relaxed and healed, where epicures have bathed in warm thermal springs, where body, mind, and soul have found new vitality. More than 200 years ago, a refuge for health and well-being was created in this special place. This refuge is still family-owned today and the first choice for all those who want to treat themselves.

The healing effect of Warmbad thermal water has been proven since Roman times. In the thermal spring pool “Thermal-Urquellbecken” you can take a dip in 100% pure thermal water and let yourself float – unique in Europe! Guests at Warmbaderhof relax exactly in a place where the thermal water bubbles out of the earth. The power of the 25° to 29° C warm water is optimal for lasting regeneration and ensures a holistic feeling of well-being. After bathing in the natural spring of the goddess Vibe, our guests glow with new vitality. Try it out for yourself!

My new body awareness

Leaving the stresses and strains of everyday life behind and gathering new energy through exercise, rest, and a healthy diet – this is possible at Warmbaderhof! Our experienced team of excellently trained therapists, doctors, and beauty experts guides you with passion and the will to really help. The hotel's own VIBE Therapy and VIBE Beauty department is not only aimed at people who want medical treatment and care – Warmbaderhof is a place for bonvivants, for wellness fans, for those seeking relaxation, and for culture enthusiasts.

Maximum flexibility
for your stay:
**Our new additional
packages**

The highest levels of medical competence awaits you during your health stay in the traditional 5-star hotel Warmbaderhof. You, your well-being, and your health are the centre of attention here. Doctors, psychologists, physiotherapists, medical masseurs, fitness trainers, and dieticians work hand in hand to relieve pain and achieve a lasting health improvement.

Physiotherapies, massages, baths and packs are combined in a precise and highly competent way with the healing Warmbad thermal water. Individual training sessions are tailored to your needs and support intervertebral discs, spine and joints for a new, vital lifestyle.

Healing thermal water

Warmbad thermal water is used therapeutically for its analgesic, anti-inflammatory, and calming effects. It is therefore particularly suitable for the treatment of musculoskeletal complaints. In addition, it reduces stress and promotes blood circulation. The therapeutic measures are based on the special healing effects of the water.

This therapy helps with:

- + Wear and tear and loss of spinal mobility
- + Muscle tensions and muscle weakness
- + Rheumatic diseases of the musculoskeletal-system
- + Rehabilitation after surgery
- + Rehabilitation after neurosurgical procedures
- + Peripheral neurological diseases

My Warmbaderhof

My female energy

An answer to the challenges of menopause filled with energy and serenity. Treatments, such as the “Holistic Healing Massage for Women” help to relieve discomforts such as hot flashes, sleep disturbances, weight gain and mood swings and gently find again your center of gravity. The woman’s health and vitality are both strengthened and endowed with new energy and stability. In particular, the package “Energy for women” alleviates the symptoms of menopause such as insomnia and hot flashes. All women’s health topics are touched upon, such as digestion and weight, menopause with insomnia and stress problems as well as hormone balance. Hormonal imbalances are rebalanced and even the mind regains its balance.

(Time) out for me.
„Relax, let go and become aware of your own needs again, recognizing the signals of the body and, with the help of individually tailored therapies, find back to a healthy, vital body feeling.“

Andrea Weiler, medical masseuse and medical spa expert at Hotel Warmbaderhof

The healing massage for women helps in case of:

- + Endometriosis
- + Incontinence
- + Menopausal symptoms

Cold kick in Warmbad-Villach: Pure refreshment

-110°C Kryo Suite Warmbad

After just 3 minutes in the cold chamber down to -110°C of the Panacool, following a short-term cooling session, you will experience immediate benefit and a feeling of vitality. With more than 50 areas of application in the medical, aesthetic and sporting fields, sessions in the Kryo Suite at Warmbad will provide relief for numerous ailments. Save time, gain efficiency and simply be cool! In the long term, cold therapy can be used for a wide variety of symptoms. It affects metabolic processes on a cellular level, which means that in the case of inflammatory rheumatic diseases and chronic illnesses, there is a significant reduction in pain. Skin diseases such as psoriasis or atopic dermatitis are alleviated due to the anti-itching effect of cold. Cold therapy improves general wellbeing and also leads to improvements in sufferers of migraine and depression. The complex effect on the body leads to an increase in vitality and well-being and has a positive influence on the immune system. The body's defenses are strengthened and inflammatory reactions are curbed.

Cold regeneration à la Warmbad

Our bookable medical package:

For a new body sensation and a new sense of well-being. A diet rich in pollutants, environmental toxins, stress and a hectic pace damage our bodies and make us tired. A visit to the cold chamber can help you start your day full of energy again.

Healthy eating

Healthy eating is one of the main pillars of our hotel offer. During the holidays, the culinary part cannot be missing, that's for sure. Our captivating and creative, yet balanced and light menus show that a conscious and healthy diet does not automatically mean giving up something. Our offer consists of a composition of balanced and calorie-conscious dishes, mainly prepared with regional foods. There is room for high quality proteins and healthy fats,

as well as many colorful vegetables and seasonal salads.

Not only figure-conscious guests will rave about our light and vital menus, even gourmets will not disdain this menu. Delight your palate without feeling guilty!

online from our
webshop

A true paradise for dessert lovers awaits you in our café-pastry shop with à la carte restaurant. Enjoy home-made cakes and tarts, prepared with love, as well as menus and refined dishes combining regional and Mediterranean cuisine – for incomparable enjoyment.

Master pastry chef Michaela Neumayr and master pastry chef Stefan Heiser create exceptional desserts with passion and dedication. They attach great importance to quality. For their award-winning creations they use only natural ingredients and completely avoid baking agents and artificial additives.

The traditional café-pastry shop has been in business for over 50 years and offers a wide selection of fresh sweet delicacies every day. You can enjoy them directly on site or take them home. They also make wedding and birthday cakes to order according to your individual wishes and also prepare lactose-free or gluten-free cakes.

Experience nature The 20th Warmbad spa park

The spa park has always been in the care of the family that owns it. Mr Ludwig Walter, an ancestor of the owner family, began to turn what was then a pasture area into a park. The design of the park itself was based on an idea of the spa physician Dr Trippolt, who spent six months of the year in Opatija. There, Dr Trippolt discovered a beautiful park that inspired him. Based on this idea, the Warmbad spa park was created and designed. The idea behind the creation of the park was to give visitors the opportunity to stroll and relax in the thermal park after their treatments.

The natural state of the park as it is today is the result of a successful cooperation between Warmbad's forestry, agricultural and nursery sectors. In recent years, all those involved have successfully implemented the transformation from a strict floral arrangement to a natural and bee-friendly meadow. Particularly rewarding is the cooperation with the Dobratsch Mountain Nature Park.

The Warmbad spa park is located at the foot of the Dobratsch Mountain Nature Park and covers just over four hectares with hiking trails, flower arrangements and designated areas for therapy and relaxation. The park offers a wide range of trees and habitats, as well as traditional flower and herb plants. This natural idyll invites hotel guests

This natural idyll invites hotel guests and residents to relax, stroll and spend time in nature.

Feel nature Green Flag Award®

The international quality award for parks and green spaces was awarded for the first time in Austria. On June 26th 2023, the 'Warmbader Naturpark' received the 'Green Flag Award®'. This award recognises above all the long-standing commitment to the preservation of old trees and plant species and, in the case of Warmbad-Villach, the combination of art and nature. Thanks to this unique combination of art and nature, the Warmbad-Villach spa resort decided to apply for the 'Green Flag Award®'. This is a seal of quality for parks: the gardens and parks to be assessed are carefully examined according to strict, British criteria with regard to the state of maintenance, cleanliness, public accessibility, barrier-free access, user orientation, park management, marketing and much more.

Protecting nature Environmental awareness

The omnipresent topic of sustainability is also not neglected at the Warmbad-Villach spa resort. Thanks to a 1,500 m² photovoltaic system, around 333 MWh of solar energy is produced annually for the resort's own consumption, which corresponds to the annual consumption of 50 single-family households. In addition, all lamps are gradually being replaced by LEDs and the waste water from the spa is used for energy recovery. In addition, the resort operates its own agricultural estate and relies on regionally sourced products in the gastronomy sector as well. The resort also has a self-service shop selling local organic products and uses regional ingredients in its restaurants.

5 stars for the Hotel Warmbaderhof*****

The Austrian hotel classification is a uniform system valid throughout Austria and offers guests and travel companies a reliable aid in finding their way around the quality of hotel and accommodation offers. The classification into a star class is carried out by an independent commission at the request of the establishment. The Hotel Warmbaderhof***** has been rated on the basis of a wide range of criteria, such as overall impression and state of preservation, quality of services and much more. We are pleased that the Warmbaderhof can continue to be operated as a 5* establishment in the future!

Feeling culture. The health- and thermal resort as a place for arts

Exhibitions on selected themes or focal points are held at the ThermenResort on an ongoing basis. Furthermore, works of art in the areas of painting, design, sculpture, glass art, photography and installations by Austrian and international artists can be admired throughout the ThermenResort, photography and installations by Austrian and international artists. There is also a Co-operation with the “Kunsthistorisches Museum” in Vienna, which is used to promote current exhibitions in the hotel.

Guests also have the opportunity to take part in guided tours of the ThermenResort. If you are interested, the hotel reception will be happy to help.
